**JUDENSPANISCH IN BULGARIEN: EINE KONTAKTSPRACHE ZWISCHEN
ARCHAISMUS UND INNOVATION**

[Judeo-Spanish in Bulgaria: a Contact Language between Archaism and Innovation]

Abstract: In this article, we first outline previous research on the morphosyntax and phonology of the varieties of Judeo-Spanish spoken in Bulgaria. Second, we discuss the research gaps resulting from our literature survey and present the research questions that will be addressed in the project “Judeo-Spanish in Bulgaria: a contact language between archaism and innovation”, funded by the German Research Foundation (*Deutsche Forschungsgemeinschaft*) for a period of three years (2022–2025).

Keywords: Judeo-Spanish in Bulgaria; contact-induced change; vowels; intonation; pronominal clitics; word order
